# Geometry Quilt using Precuts

Approx. finished size: 45" by 50"
By Valerie Nesbitt

Fabrics requirements:

40 x 5" squares - (these could of course come from a layer cake)
Sashing: 50cm
Border 1 – 30cm
Border 2- 60cm
Quantities based on fabric 112cm wide (42")

Workshop Notes

Row 1, 3 and 5

Create the 4-patch first from a series of 2.5" squares cut from your 5" squares
You will need 5 of these per row (15 for this quilt)
Add a rectangle piece next to 4 of them, which has been cut 2.5" x 4.5"
Sew all the blocks together making sure you have a four patch at the start and end of each row.

Rows 2 and 4

Sew together six 5" squares.

Sashing and Border

Cut 4 strips of sashing 3½" wide and sew between the rows.
Then cut 4 strips of border 1 (we used same fabric as the sashing) 2½"wide and sew to both sides of the quilt then to the top and bottom – the cornerstones are optional.
Finally cut strips 5" wide for border 2, again adding optional cornerstones.

Layer, quilt and bind using your preferred methods.
